

## MULKEY'S APPEAL SUSTAINED BY STATE COMMITTEE

NAME PUT ON TICKET WITH  
SPEIGHT'S FOR JUNE 23,  
ELECTION.

Fight lasted for several hours, but  
on a vote it was seen that State  
Executive Committee was in  
thorough accord with the lead-  
ers of the Third District.

COMMITTEE REPUDIATES  
RING POLITICS

Hon. W. O. Mulkey, of Geneva,  
was an easy winner in his contest  
before the State Executive Commit-  
tee yesterday at Montgomery. The  
committee voted 23 to 7 in favor of  
repudiating the action of the Con-  
gressional Committee when it named  
Speight as the nominee for con-  
gress from this district.

At no stage of the proceedings  
was there a doubt as to what the  
result would be. Speeches were  
made by attorneys and friends of  
both contestants. Mr. Mulkey was  
asked to make a statement for him-  
self, which he did, and which speech  
without another word, would have  
won his case before the committee.  
It was so clearly shown that there  
was no law backing up the action  
of the Third Congressional Com-  
mittee in its action of declaring  
Speight the nominee—nine men  
saying what the entire electorate  
of the district should do. The State  
Committee wanted to place itself on  
record as condemning such political  
steam-roller methods, and if there  
had been a precedent for such ac-  
tions, that precedent was to be done  
away with for all time to come.

This whole scheme smelt as if it  
had been engineered by Judge Clay-  
ton and Senator Bankhead. It look-  
ed as if it was cut out in Washing-  
ton, and that Judge Clayton, after  
receiving the nomination as con-  
gressman from this district, deferred  
his resignation after being ap-  
pointed judge till such a time that  
no primary election could be called.  
Thus leaving, as he thought, the  
whole matter in the hands of the  
congressional committee, whom he  
thought would act favorably to  
Speight's candidacy. So far so  
good. But the plans went astray.  
Judge Clayton, after giving the  
medicine, wouldn't stay till the  
corpses were buried. He hurried out  
of town to convene another court  
and draw another jury, and poor  
Josh Speight and his friends, had  
to make the best of their fight.  
Really, the action makes Speight  
the victim of circumstances. He  
has done nothing to make the peo-  
ple of this district dislike him, and  
they don't dislike him. The plum  
in the shape of a congressional nom-  
ination from that committee, look-  
ed good enough to accept, and he  
did so. Who wouldn't have accept-  
ed? However, if Mr. Speight had  
thanked the committee for its kind-  
ness, but politely declined to accept  
it as final, but asked that the people  
pass on it, it would have made votes  
for Speight. He's the victim of a  
political scheme that went wrong.  
He couldn't have anticipated the re-  
sult.

E. W. Jenkins, of St. Louis, rep-  
resenting the St. Louis Better Farming  
Association, is in Dothan today con-  
fering with local watermelon buy-  
ers.

ATTENTION MODERN WOODMEN

All members of Edgewood Camp,  
No. 16101 M. W. of A., are request-  
ed to be present at the regular  
meeting Thursday, June 18, at 8  
o'clock p. m., business of impor-  
tance to come before the Camp.  
H. H. McClintock, Consul.

## SAY BANK WAS LOOTED BY INTERESTS

Chicago, June 18.—Astounding  
revolutions showing the LaSalle  
Trust and Savings Bank was loot-  
ed by interest and headed by For-  
mer Senator Lorimer and C. B. Mun-  
day is contained in a petition for  
receiver filed by Attorney General  
Lacy.

The petition charges that the  
bank was conducted in a fraudulent  
manner, and that assets listed in  
the bank's statement are worthless.  
Hundreds of thousands of dollars  
are missing altogether. Directors  
are charged with gross neglect.

WOMAN LANDS BIG  
TARPON IN FLORIDA

St. Petersburg, Fla., June 18.—  
At John's Pass, near St. Petersburg,  
famous for tarpon fishing, Mrs. A.  
D. Jordan, formerly of Atlanta, Ga.,  
was the first woman to catch one of  
the giant fish this season.

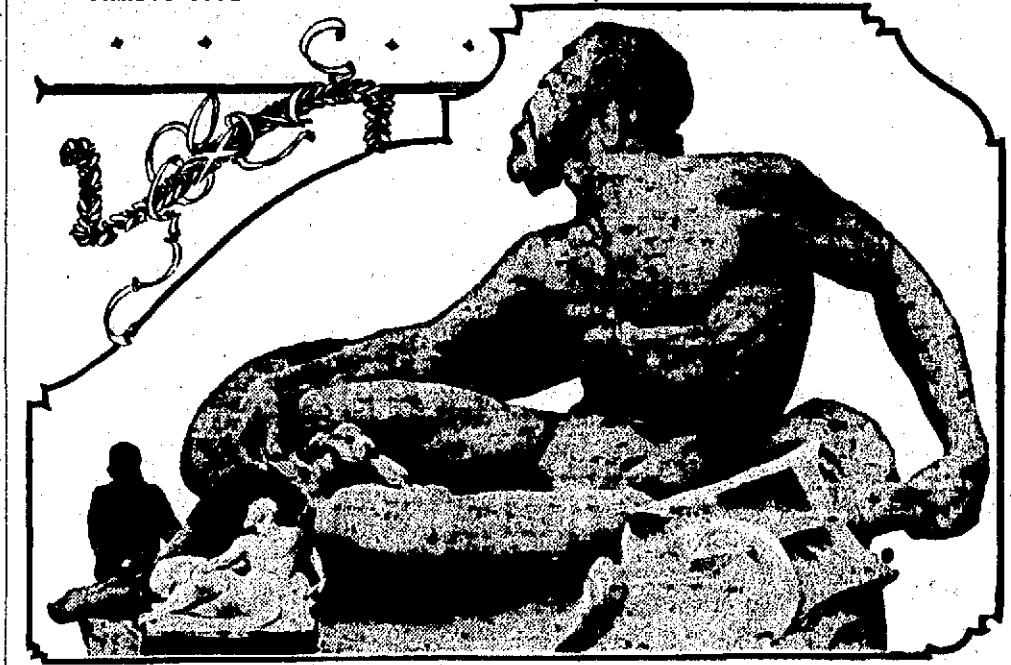

Mrs. Jordan whose husband is a  
brother of Otto Jordan, former man-  
ager of the Atlanta Baseball team,  
landed the monster fish in the pass  
at 10 o'clock at night. She fought  
for five minutes before the tarpon  
was beached. The tarpon  
weighed seventy-five pounds.

Frederick Ward, scarcely needs  
an introduction. He is known and  
loved as a man who seeks to make  
clear the profound philosophy,  
beauty, wisdom and moral ideals of  
the great author—Shakespeare.  
"The Bard of Avon."

## ONE OF THE ART EXHIBITS TO BE SHOWN AT EXPOSITION

FAMOUS SCULPTOR'S CONCEPTION OF "WATER" FOR COURT OF THE UNIVERSE.

Scene in one of the sculptural warehouses on the exposition grounds. The figure above is that of a remark-  
able sculptural composition by Robert I. Altin, one of the most brilliant of American sculptors. The figure,  
representing the sculptor's conception of "Water," is a companion piece to three other symbolical sculptures—  
"Fire," "Earth" and "Air." The four figures, typifying the elements, will flank the deities in a vast sunken  
garden in the superb court of honor, the Court of the Universe. On the left may be seen the original model from  
which the figure was enlarged.  
Copyright, 1914, by Panama-Pacific International Exposition Company.

## Drill Team May Help IN WORK AT TAYLOR ATTEMPT TO ASSASSINATE CZAR OF RUSSIA

The drill team of the local lodge  
of the Woodmen of the World may  
go to Taylor tonight for the purpose  
of participating in the initiation of  
six or seven new members at Taylor.  
It is not known positively whether  
the Dothan Woodmen will make the  
trip.

The Woodmen of the World are  
giving a picnic at Taylor today, and  
it is probable that members of the  
local lodge may attend and take  
part in the fun and frolic. All the  
necessary requisites to make a pic-  
nic a great success, including a good  
dinner and soft drinks, are said to  
be on hand at the picnic grounds.

## FEAR WEEVIL WILL DESTROY S. E. ALABAMA CROP

Montgomery, Ala., June 18.—  
The cotton crop in Alabama south  
of Lamar county, is in danger of  
destruction by the boll weevil, ac-  
cording to agricultural officials just  
returned from a tour of inspection.

According to the officials the crop  
will be a total failure unless the  
farmers immediately begin a vigor-  
ous fight against the insect. The  
department of Agriculture will is-  
sue a bulletin on the situation.

CHILD DIES.

The young child of Mr. and Mrs.  
Walter Folkes, West Main street,  
died this afternoon, the full partic-  
ulars not being available at this  
hour.

WAR ON BEEF PRICES.

Key West, Fla., June 18.—Hold-  
ing that meat prices are too high,  
the labor organizations of Key  
West called upon their members to  
refuse to buy beef. So great is the  
slackening off in demand for beef  
that the cattle boat plying between  
Punta Roca and Key West has been  
discontinued.

## Drill Team May Help IN WORK AT TAYLOR ATTEMPT TO ASSASSINATE CZAR OF RUSSIA

St. Petersburg, June 18.—An un-  
successful attempt was made today  
to assassinate Czar Nicholas and the  
entire Royal family. While on the  
way from Bucharest to St. Peters-  
burg, a bomb was placed on the  
train. A mail train just ahead of  
the Royal Special struck the ex-  
plosive. The train and track were  
demolished and a score fatally in-  
jured. The Royal train was detour-  
ed.

Several persons were arrested in  
connection with the attempted as-  
sassination.

## SPEED THE PARTING TEDDY

Southampton, Eng., June 18.—A  
warm farewell was given Roosevelt  
when he sailed for New York this  
morning on the Imperator. Crowds  
cheered the Colonel in London and  
he received a friendly demonstra-  
tion here.

The former president said he  
could not enter the campaign vig-  
orously, and positively would not  
run for governor New York. He  
has a throat affection that will  
keep him comparatively quiet so  
far as speechmaking is concerned.  
His voice goes off into a squeak  
when he tries to speak loud.

PEDESTRIANS HAVE RIGHT

OF WAY, SAYS JURIST

Philadelphia, June 18.—"Pedes-  
trians have the right of way at  
street crossings and drivers of ve-  
hicles must recognize this right at  
their risk," declared Judge Sulz-  
berger in the quarter sessions court  
in refusing a new trial to William  
K. Hoskins, driver of an automobile  
convicted of involuntary manslaughter.

## Must Pay Auto License By Monday

Warrants will be sworn out Mon-  
day for all who have not complied  
with the State law by paying the  
necessary automobile tax, and war-  
rants will also be issued against au-  
tomobiles still using red tags, ac-  
cording to Tax Commissioner H. W.  
Lienhry.

Mr. Lienhry says that a number  
of automobile owners subject to tax-  
es, have already paid the required  
amounts, but that for some reason  
they have neglected to take the red  
tags off their cars and substitute  
the new ones. Such persons per-  
sisting in using the red tags, will  
be arrested, he says.

## WOMAN HELD FOR MURDER OF ELROY SMITH

Terre Haute, Ind., June 18.—  
Mrs. Myrtle Gibbons, whose husband  
recently secured a divorce, was held  
today for the murder of Elroy  
Smith, owner of two picture shows.  
The woman admits the shooting,  
claiming Smith attacked her in the  
theatre, bumping her head against  
the wall.

There were no witnesses. Smith's  
wife recently secured a divorce.  
Gibbons had entered a suit against  
Smith for alienating affections.

ter for running down and killing

Mrs. Eliza B. Rothwell here last  
November. Hoskins was sentenced  
to six months in jail and to pay a  
fine of \$250. Counsel for Hoskins  
at once appealed to the superior  
court, contending that "the judge's  
theory of law is a misguided one  
founded on a personal prejudice  
against the operators of automobiles  
who figure in accidents of this  
kind."

## STATEMENT OF MEXICANS ANNOYS U. S. MEDIATORS

BANKRUPTCY PROCEEDINGS  
Involuntary bankruptcy proceed-  
ings have been instituted in the U-  
nited States court against J. P. Botts  
doing business as the Botts Produce  
Company. A receiver has not been  
named.

J. M. Fisher of St. Louis, was  
here today.

## 35 GALLON DISTILLERY IS CAPTURED

Revenue officers finding 350 gal-  
lons of beer and 10 casks of  
Whiskey Near Dothan.

A 35-gallon, "Yankee-made," fur-  
nace-shaped illicit distillery was cap-  
tured by United States revenue of-  
ficers seven miles southwest of Do-  
than today, and warrants have been  
issued for the alleged operators of  
the distillery.

When Deputy Collector M. N.  
Winters, Deputy Marshal A. J. Col-  
lier and Special Deputies A. B. Vick-  
ory and J. M. Ellis appeared upon  
the scene, the officers say they  
found from five to ten men waiting  
for whiskey. They fled at the ap-  
proach of the officers.

Besides capturing the copper dis-  
tillery, which is machine-made and  
up-to-date in every respect, the of-  
ficers found 250 gallons of beer and  
about 10 gallons of moonshine whis-  
key, which they destroyed.

There are many people in Dothan  
who will probably be surprised to  
know that a thirty-five gallon ille-  
git distillery, fully equipped for mak-  
ing moonshine liquor, was located  
within seven or eight miles of the  
city, with a plentiful stock of inter-  
locks on hand.

The distillery was brought to  
town and taken to the office of U-  
nited States Commissioner C. E. Tut-  
tler, where it will be kept until  
further disposal. When the cases  
come up for trial in court, Deputy  
Winters may need the distillery to  
illustrate its operations to a jury.

## Busy Bee Cafe In Dixie, Is Burned

The Busy Bee cafe in Dixie was  
gutted by fire this morning at 1:15  
o'clock, the fixtures, ceiling and  
plastering being destroyed by the  
flames, entailing a loss estimated  
at \$1,000 or \$1,200, according to  
Fire Chief Zigler. The building  
which was owned by R. J. Fraser,  
was covered by insurance.

The origin of the fire has not  
been determined, but the flames are  
said to have started at the front of  
the building. The firemen answer-  
ed the alarm promptly, but the  
flames had gained too much head-  
way for the fire fighters to save the  
interior furnishings, although the  
framework was saved.

Mediation Headquarters, Niagara  
Falls, June 18.—The lid is on tight  
on the American delegates follow-  
ing a statement given to the press  
by the Mexicans last night. The re-  
ply the Americans had prepared was  
held up on orders from Washington  
and may not be given out at all.  
United States representatives were  
visibly annoyed by the Mexican  
statement and an attempt was made  
to conceal the fact that a new crisis  
is at hand.

The opinion here is that the  
patching up of differences between  
Villa and Carranza caused the Mex-  
icans to realize that Huerta's gov-  
ernment is bound to fall shortly and  
mediation for them is a failure; the  
statement was made in a desperate  
effort to rouse American sympathy.

## THINK END OF MEDIATION IS NOW IN SIGHT

Washington, June 18.—Statement  
of the Huerta peace delegates charg-  
ing the United States with "obstac-  
ling and even exacting fraud," as the  
Mexican election, is interpreted by  
officials today to be preliminary to  
the formal end of mediation. It is  
believed the "conversation" to be  
had tomorrow will be the final one  
when the mediation convenes.

The mediators will inquire if the  
United States and Mexican repre-  
sentatives have been able to mod-  
ify their positions. If they will be  
opposed the A. B. C. mediators will  
"call the deal off."

General Funston reports Mexican  
surrounding Vera Cruz have adopt-  
ed a menacing attitude and asked  
permission to extend lines and re-  
inforce outposts. The permission  
was denied until the formal end of  
peace efforts.

THINGS MEN HAVE TO DO

From the New York Evening Mail  
To go shopping with women.  
To sit for a portrait.  
To carry home bundles.  
To tell the boys "I can't tonight."  
To wheel the baby carriage.  
To seem to be thoughtful.  
To treat a tightwad.  
To kiss his wife or mother in  
public.

## MAY LOCATE BIG UNIVERSITY AT U'NAM

Birmingham, Ala., June 18.—  
The Methodist commission appointed  
to select the southern site for a  
university adjourned here today.  
Much preliminary work was  
accomplished but no definite an-  
nouncements.

The commission is much impres-  
sioned with conditions in Birmingham  
which favor locating a university  
here and Chairman Chandler stated  
he would not be surprised if Bir-  
mingham lands the institution.

The commission will remain here  
part of the time then proceed up  
to Atlanta to look over possible  
sites.

### MAKE GREATER USE OF THE PARCEL POST.

Did you read those parcel post experience letters in the *Progressive Farmer*? They were interesting indeed, and from the many ways these correspondents have found the new service of value to them we believe all readers may gain ideas that will be of great service in their future buying and selling operations.

These letters were uniformly optimistic and enthusiastic—we found maybe a little too much so, for the parcel post system still has not outgrown its infancy. It is not perfect, but it is a great improvement over the old way of shipping goods. It is a service that will be of great value to the farmer, the merchant, and the consumer. It is a service that will be of great value to the farmer, the merchant, and the consumer. It is a service that will be of great value to the farmer, the merchant, and the consumer.

But even as it is our parcel post system is a great institution, one of the most useful and most helpful legislative enactments turned out at Washington in many a day. The point is, let's use it more, and thus learn more of its value. Only recently the Postmaster General issued an order authorizing postmasters in certain cities to prepare lists of farmers, dairymen and poultry raisers who are prepared to supply city consumers by parcel post, and we hope that many *Progressive Farmer* readers are taking advantage of this opportunity. We are by no means claiming that the service is as yet perfect, but we are certain that by using the parcel post more we may be in a better position to advise our representatives in Congress as to just what is needed to make it what it should be.—The *Progressive Farmer*

### ANNOUNCING THE FREE SYSTEM.

There is hardly any doubt but that the next legislature will abolish the fee system in Alabama, and put all officials on a salary basis. When this is done it will take some of the steam out of the judge of probate in Houston county, and in all the other counties in the state. And in Jefferson, Mobile and Montgomery counties, the office of sheriff will not be the paying thing it now is.

In fact, when you put the official on a salary many changes will come about that will mean more money in the pockets of the people.

And while they are about abolishing the fee system, they can abolish some of the other offices of county officials. It could be done away with in one week. As the people would suffer. As the people would suffer.

The official and handle the fee system, they can abolish some of the other offices of county officials. It could be done away with in one week. As the people would suffer. As the people would suffer.

### LEARNING TO CLEAN UP.

There is no much to be learned from the education system. It is a long enough to be really intelligent. Probably no country on earth has more things to learn than the United States, but we haven't been learning things around other countries.

We have progressed well during the past fifteen years, however. We will never forget the lesson the Spanish American war taught us. Up till 1898, the whole world knew nothing about sanitation. We did not know what caused yellow fever or malarial fever. We didn't know about germs and things as we do now.

The first thing Uncle Sam did when he took possession of Vera Cruz was to clean it up, and that was promptly done. Every army and navy officer now knows what sanitation means. The army is not killed out now with typhoid fever. It doesn't dread yellow fever. It knows the germs are not in it, and healthy, that those diseases have no terror.

It is important for the army and navy to observe the laws of health, how much more important is it that the citizens of Dothan observe them. This is our home. All we have is here, and most of us expect to keep living here as long as we live, and it would be a mighty fine thing if every citizen of the town were to turn health officer.

### CLIPPED From The Exchanges

#### Known of Old.

Ambassador Thomas Nelson, like most married novelists, has married life in his books from the inside, as it were. A Washington woman said on her return from Rome, according to the *Star*:

At a tea Mr. and Mrs. Page had a ludicrous argument over something or other, and when their misunderstanding was satisfactorily cleared up Mr. Page laughed and said:

This seems like a chapter that has slipped out of a novel, doesn't it?

It seems Mrs. Page retorted more like a chapter that will slip into one.

#### Harry Smitten With Illness

Rev. Frank W. Brandon, who has just returned from a trip to the west, says: "An illness in the future is a damper on the cheek of the South. You just as fit as the pit of dimples that nestle in the corners of the mouth of William Waller, the movie star."

#### Especially at This Time

The reign of the demagogue and the reign of the politician and all the other reigns like those never found so sweet as just simple RAIN.—Valdosta (Ga.) Times

#### Guess He Got It Too

A new way in Montgomery this week seeking pardon for violating the prohibition laws in several instances. He had a petition signed by more than 1,000 names, with many letters from prominent citizens, asking his full restoration.

### THE GRINDING OF LENSES FOR SPECTACLES

Is a delicate operation. It requires skilled workmen at high salaries to grind lenses to precise prescriptions. The smallest deviation from the proper curvature makes a big difference in the lens. The accuracy of the work is made with very sensitive instruments and our lenses are ground for us by workmen of the highest skill and scientific training.

W. C. STRICKLAND,  
Optometrist

## MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo. — "The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and I took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity." — Mrs. H. T. Winn, 1225 Fremont Ave., Kansas City, Mo.

Read What Another Woman says: Cumming, Ga. — "I tell some suffering woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time. I could not do my housework or walk any distance without suffering great pain. I tried doctors' medicines and different patent medicines but failed to get relief. My husband brought home your Vegetable Compound and in two weeks I could eat anything, could sleep like a healthy baby, and walk a long distance without feeling tired. I can highly recommend your Vegetable Compound to women who suffer as I did, and you are at liberty to use this letter." — Mrs. CHARLES HAZLEY, R. 3, Cumming, Ga.

Rev. Dr. Foster, the Episcopal rector at Marlboro, passed through Dothan last night on route to Montgomery.

W. W. McCarty, Clerk.

## Marvelous Works of Art to be Shown at San Francisco

Forty-six of the World's Navies Will Participate Officially Upon a Stupendous Scale—World's Most Noted Architects Create City of Palaces the Like of Which Man Has Never Beheld—England to Exhibit.

The photographs upon this page reveal just a few of the thousands of marvels that will be seen by the millions who visit the Panama-Pacific International Exposition in San Francisco next year. The opening of the Panama canal is regarded by the nations as one of the most stupendous events in the history of the world, and in recognition of the great work at Panama there will be exhibited in San Francisco such a display of the world's progress as has never been seen before.

The news that England will exhibit at the Panama-Pacific International Exposition is evidence of the amazing interest that is everywhere taken in America's Panama canal celebration.

Thirty-six of the world's great nations will officially participate in the exposition. Here is the list: Argentina, Australia, Austria, Bolivia, Brazil, Bulgaria, Canada, Chile, Costa Rica, Cuba, Denmark, Dominican Republic, Ecuador, France, Guatemala, Haiti, Holland, Honduras, Italy, Japan, Liberia, New Zealand, Nicaragua, Panama, Peru, Portugal, Salvador, Siam, Spain, Sweden, Turkey, Uruguay, Venezuela and Great Britain. The nations have appropriated enormous sums. The Argentine, for example, has appropriated \$1,300,000 gold for its display; Canada has appropriated \$600,000 and construction is far advanced on the great Canadian pavilion.

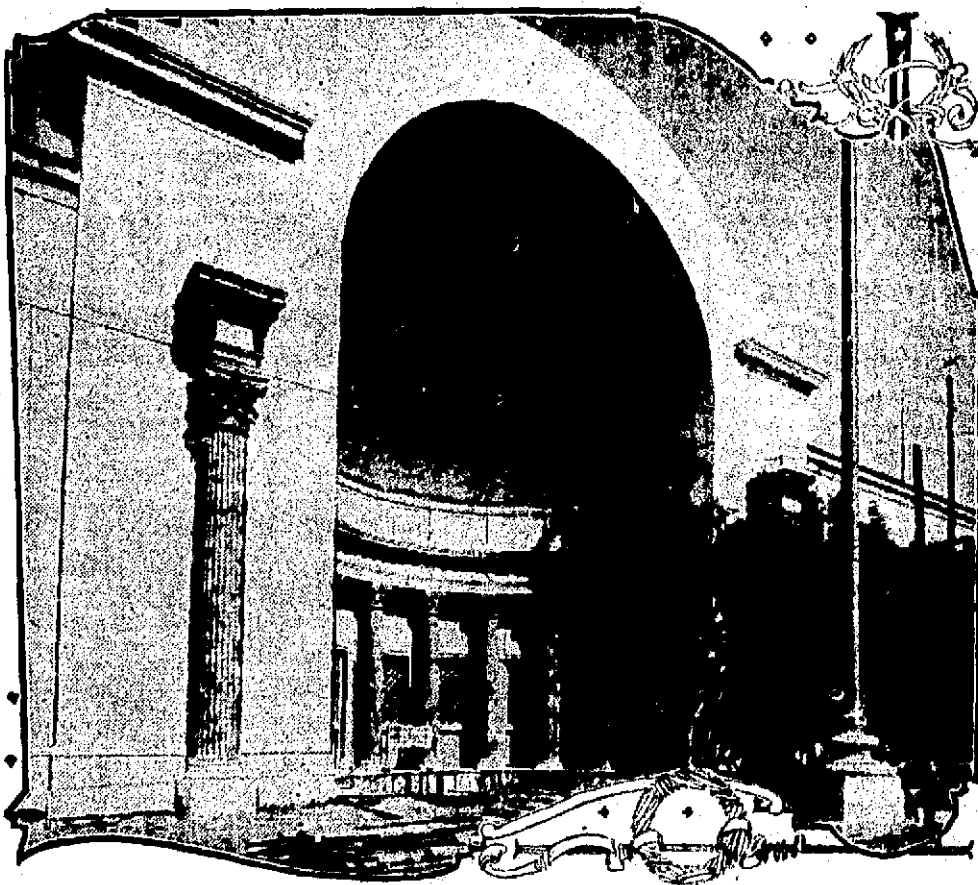

The natives of every civilized country on earth will be enabled at San Francisco to behold a surpassing view of the progress of their native land.

Throughout the United States and in foreign lands millions of people are planning to visit the exposition next year. At a recent meeting of the Transcontinental Passenger association it was decided to make great reductions in railroad fares. The exposition opens on February 20 and closes on December 4, 1915.

The exposition today is one of the sights of the world. The passenger on a steamer through the Golden Gate beholds the vast domes of the exposition palaces rising like the domes and minarets of a fabled Oriental city. Before the main group of exposition palaces, which face south upon the harbor for more than one mile, a great sea esplanade has been constructed; this has been wonderfully landscaped with thousands of rare trees and shrubs brought from distant parts of the world. Here multitudes will gather during the exposition to view by day the assembled warships of the world's navies and at night a wonderful series of colored illuminations visible forty or fifty miles away. The entire exposition grounds parallel San Francisco harbor for almost three miles.

A HANDSOME book of sixty pages, illustrated profusely in colors and giving detailed descriptions of the Panama-Pacific International Exposition to be held in San Francisco from February 20 until December 4, 1915, and of the Panama canal and the canal region, will be mailed by the Panama-Pacific International Exposition free of charge to all inquirers. The booklet is intended as a general guide to prospective visitors and will also contain information concerning the great engineering feat which the exposition is to celebrate. Write to the Manager, the Bureau of Publications, Panama-Pacific International Exposition, Exposition building, San Francisco, for the booklet.

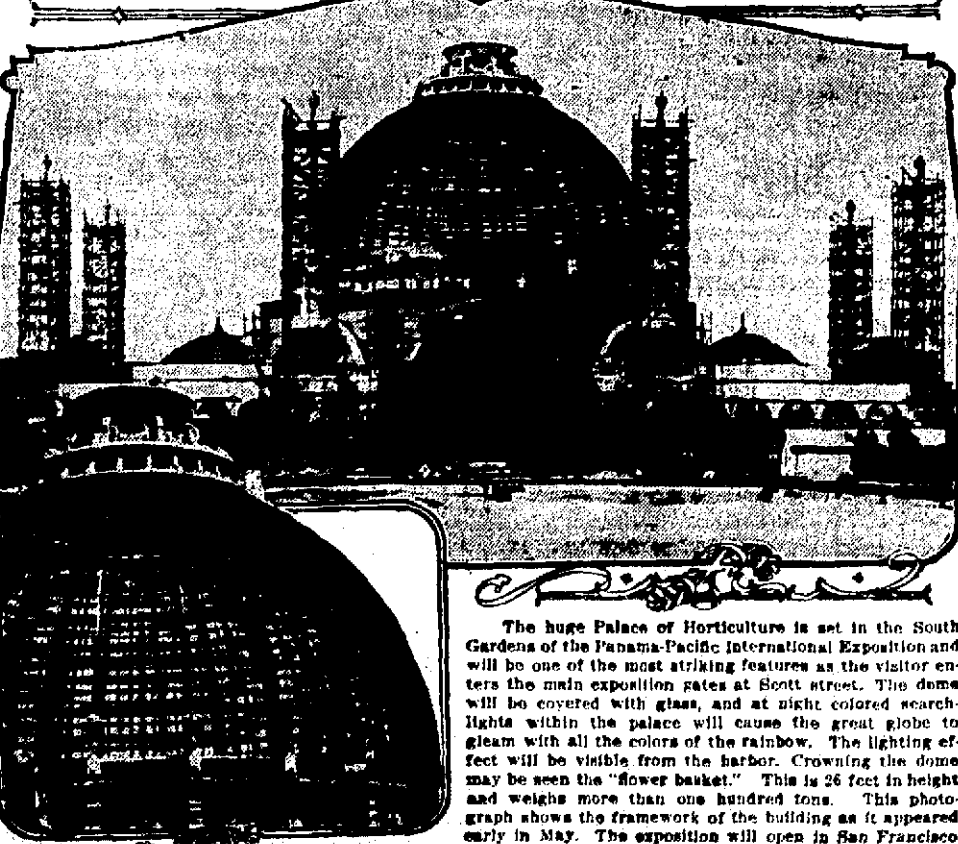

VIEW OF A HALF-DOME IN THE WONDERFUL PALACE OF EDUCATION.

Copyright, 1914, by Panama-Pacific International Exposition Company.

This photograph shows a half-dome in the colossal Palace of Education at the Panama-Pacific International Exposition in San Francisco in 1915. The world's most noted artists, mural decorators and sculptors were engaged to decorate the exposition palaces and, as a result, the huge structures are indescribably beautiful. The interior of the dome is embellished with a superb mosaic of brilliant colors, designed under the supervision of Mr. Jules Guerin, the noted artist. The height to the top of the half-dome is 110 feet.

FIRST NEWS PICTURE OF THE WONDERFUL PALACE OF HORTICULTURE

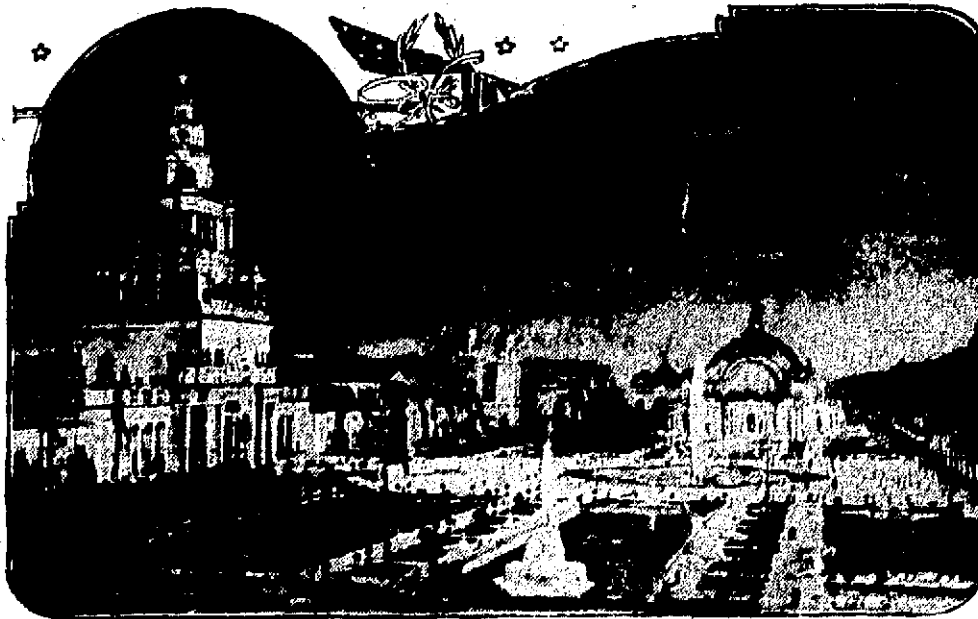

A Nearer View of the Dome.

Copyright, 1914, by Panama-Pacific International Exposition Company.

The huge Palace of Horticulture is set in the South Gardens of the Panama-Pacific International Exposition and will be one of the most striking features as the visitor enters the main exposition gates at Scott street. The dome will be covered with glass, and at night colored searchlights within the palace will cause the great globe to gleam with all the colors of the rainbow. The lighting effect will be visible from the harbor. Crowning the dome may be seen the "flower basket." This is 26 feet in height and weighs more than one hundred tons. This photograph shows the framework of the building as it appeared early in May. The exposition will open in San Francisco February 20, 1915.

VAST SOUTH GARDENS OF THE MARVEL EXPOSITION CITY AT NIGHT.

Night view of South Gardens and main entrance to the Panama-Pacific International Exposition at San Francisco in 1915. Dominating the scene at the left of the picture is the Tower of Jewels, rising some 435 feet into the air, its architectural lines marked with thousands of glittering hand-polished crystals of many colors and its whole surface softly glowing with the reflected light from the area which are hidden from the spectator. Further down the facade, at about the center of the picture, may be seen the two slender towers which guard the entrance to the Court of Palms and directly in front of the Tower of Jewels is A. R. Rilling Calder's "Mountain of Energy." In the background at the extreme left may be seen the top of the triumphal Arch of the Rising Sun, surmounted by the group "The Nations of the East."

Copyright, 1914, by Panama-Pacific International Exposition Company.

## What Six Months Have Disclosed

Dr. Masrow's Work Has Unearthed Many Optical Mistakes.

In the six months that Dr. Masrow has been located in Dothan he has been instrumental in the correction of scores of optical mistakes and failures. Many of these were of that harmful class the extent of whose injury is beyond estimation. Dr. Masrow has treated his patients. He gives an examination of the eyes that is always successful in localizing the exact trouble. Results are shown and price. Address "Room," c/o Dothan Eagle.

In many others seeking his services.

In his long experience Dr. Masrow has found that earnest effort, common sense and advancing knowledge are absolutely necessary in the proper fitting of glasses to a defective eye. A long list of instruments are of no service unless these highly efficient attributes are behind them. That Dr. Masrow has been successful in stubborn cases where these great instruments were not effective has been shown in the testimonials that have come from his patients. He gives an examination of the eyes that is always successful in localizing the exact trouble. Results are shown and price. Address "Room," c/o Dothan Eagle.

If you have eye troubles it will be to your advantage to let Dr. Masrow put the proper lenses on your eyes. His work is always guaranteed to be effective.

Dr. Masrow can be seen every Thursday, Friday and Saturday over the Cash Drug Store, 111 East Main street.

WANTED: A traveling man making headquarters in the city wants to rent a first-class room with all modern conveniences in private residence on July 1st. Give description and price. Address "Room," c/o Dothan Eagle.

## Father of Vera Cruz Hero Here

M. H. Frolichstein, of Mobile, the father of Esau Frolichstein, who was killed by Mexicans at the battle of Vera Cruz, was in Dothan last night.

Young Frolichstein met his death in the discharge of his duty as a soldier, being one of a number of brave American lads who assisted in planting the United States flag in the Mexican city. The body was given burial at Mobile with military honors.

## DIRECTORS TO MEET.

The directors of the Dothan Chamber of Commerce will meet in the office, Farmer-Forster-Crawford building, tonight at 8 o'clock, the call for the meeting having been announced by Secretary S. T. Cobb.

## FENCING STAND PIPE.

The city is building a fence around the stand pipe in Dixie. The question of converting the lot into a park has been frequently discussed by the City Council, but no action has been taken.

Dr. F. D. Whitfield has returned from a week's visit with friends and relatives at Demopolis.

## Your Confidence and Patronage

Justifies my force in working day and night turning out the kind of clothes you want and get here.

I still have some of the season's best offerings at prices to match your "Summer pocket book."

Thank you.

## REAL ESTATE

THE BEST INVESTMENT

A SLICE

Of the earth is an investment that cannot be bettered.

## REAL ESTATE

That offers the keen investor the subtlest features of sure profit—of combining his needs as to location, desirability, etc., in what our list offers.

It commands your attention, for either speculation or permanent investment.

Go over it with us now!

50 acres on new Campbellton road, mile and a half beyond Rogers' dairy. About 20 acres in cultivation, 45 acres or more could be put in cultivation, is well watered. Can sell for fifteen hundred dollars if quick sale.

25 acres about two miles from Dothan on graded road, 23 acres in cultivation and five room and two room houses. Water on place all the year. Can sell for \$1850.

30 acres on same graded road about 3 miles from Dothan, with good improvements and in good community with 65 acres open at \$40.00 an acre.

175 acres one and a half miles southeast of Grimes, 125 acres in cultivation and fairly good improvement. \$18.00 an acre. Place rents well.

82 acres of beautiful land joining this place with good improvements and partly stumped that could be put with this place at some higher price.

100 acres 5 miles southeast of Newton, no improvements, at \$5.50 an acre, 1-2 cash.

A beautiful home on East Lafayette street, right near Rose Hill school at a bargain, and one of the nicest located homes at all on North Lena street at very attractive price and terms if desired.

A very big bargain in large vacant lot, one acre, located right close in, attractive terms. You should not fail to look into this.

A nice new 5 room house, papered throughout, except kitchen, with half block at Westover, all for fifteen hundred dollars and on terms. The half block consists of six lots. House has sanitary, city water and lights.

There are only a few of the many bargains we have in city and farm property.

We have eighty farms in this and adjoining counties on our list and can suit any one wanting a farm, whether small or large.

TUTTLE & POWELL

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give

# CARDUI

## The Woman's Tonic

a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

## At The Chautauqua Friday

The Hawkeye Glee Club which will appear at the chautauqua Friday at 1 o'clock and 8 o'clock is one of the leading Glee Clubs on the Alkalist list. Their program includes both vocal and instrumental selections of merit and attractiveness, and there is no kind of doubt but they will prove popular indeed.

## THE PLANETS

### AFFECT OUR WEATHER?

From the Weekly News Letter, U. S. Dept. Agriculture.

One of our correspondents wishes us to tell him through the News Letter whether the positions of the planets have any effect on the weather.

A few people strongly assert that they do, while many others, like our correspondent, have their doubts, but are willing to be "shown." Those, however, who have given the subject careful attention are positive that none of the planets, nor even the moon, ever has any appreciable effect on the weather.

As a matter of fact all weather changes depend ultimately upon temperature differences. The temperature, as we know, constitutes of itself a most important weather factor. Another and equally important weather factor is rainfall.

But to obtain rain it is necessary first to evaporate water from the surface of the earth, and this, as every one knows, requires heat. Still another important weather factor is the direction and force of the wind, and, this, too, requires heat,

for the winds will not blow unless the temperature is different at one place from what it is at another any more than the air will draw up a chimney when there is no fire in it.

Since then the heating of different parts of the earth and its atmosphere to different temperatures is the real cause of the winds and of all the weather changes it follows that the moon and the planets can affect the weather only so far as they supply heat.

Now, according to accurate measurements made with the most delicate instruments, the amount of heat sent to the earth by all the planets and also by the moon is insignificant in comparison to the amount that comes from the sun. Hence we could not expect either the planets or the moon appreciably to affect the weather. They do not supply enough heat, the one thing that causes all weather changes.

To most people the above reasoning may seem quite sufficient and conclusive, but there is still another and an entirely different method of testing the whole question. We can observe the positions of the planets

and the kind of weather during each position and whether the same sort of weather always comes when the planets are in the same position. This kind of examination has often been made, both for the planets and for the moon, but not the slightest influence of either upon our weather has ever been found.

To sum up: We have every reason to believe that neither the planets nor the moon can have any appreciable effect on the weather, because they furnish so little heat upon which all weather changes ultimately depend, and this belief is fully supported by weather records.

The belief, still to be found in all countries, that the planets and the moon do affect the weather never had any scientific basis whatever; it is only a remnant of the many superstitions generated and fostered by that other and greater superstition, astrology.

## WIRELESS WEATHER

FORECASTS FOR

THE GREAT LAKES

A daily weather bulletin for the Great Lakes is now being sent out from the radio station at Radio, Va., according to an agreement just arrived at between the United States Weather Bureau and the United States Naval Radio Service. This bulletin is sent out in two parts: The first consists of code letters and figures describing the weather conditions actually prevailing at 5 p. m. that day at various points along the Great Lakes. The second part of the Bulletin is a special

forecast of the winds that will probably be encountered on the lakes. This is distributed to shipmasters on the Great Lakes by the Naval Radio Service during the season of lake navigation—usually from about April 15 to December 10—in the same way that weather conditions for the North Atlantic Ocean and the Gulf of Mexico are sent out. The latter service was begun in July of last year. It proved popular and the Weather Bureau was encouraged to extend the service to the Great Lakes.

## CAN YOU DOUBT IT?

When the Proof Can be So Easily Investigated.

When so many grateful citizens of Dothan testify to benefit derived from Doan's Kidney Pills, can you doubt the evidence? The proof is not far away—it is almost at your door. Read what a resident of Dothan says about Doan's Kidney Pills. Can you demand more convincing testimony?

Mrs. Mary Solomon, 740 S. Appletree St., Dothan, Ala., says: "Doan's Kidney Pills are a splendid remedy and do all that is claimed for them. I had kidney trouble. The kidney action was irregular and the kidney secretions unnatural. My back hurt me and I was nervous and dizzy. I slept poorly and mornings felt all tired out. Finally I began using Doan's Kidney Pills. They made me strong and well."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## FIVE RULES FOR BORROWING MONEY

Five rules designed to convince farmers that there is no magic about credit are set down in Farmers' Bulletin 593, "How to Use Farm Credit," which the department has just published. Unless the farmer who is thinking of borrowing money fully understands these rules and is willing to be guided by them, the Government's advice to him is: don't. As it is, there are probably almost as many farmers in this country who are suffering from too much as from too little credit.

Of these rules the three most important are:

1. Make sure that the purpose for which the borrowed money is to be used will produce a return greater than needed to pay the debt.

2. The length of time the debt is to run should have a close relation to the productive life of the improvement for which the money is borrowed.

3. Provision should be made in long time loans for the gradual reduction of the principal.

The first rule is, of course, the key to the wise use of credit. Between borrowing money to spend on one's self and borrowing money to buy equipment or some sort with which to make more money there is all the difference between folly and foresight, extravagance and thrift. If the money is borrowed for a wise purpose, it will produce enough to pay back principal and interest and leave a fair margin of profit for the borrower into the bargain. If it is borrowed for a foolish purpose it will produce nothing and consequently there will be nothing with which to repay the loan. From this point of view it matters comparatively little whether the interest be high or low. It is the repayment of the principal that is the chief difficulty.

Rules 2 and 3 deal with the most satisfactory ways of repayment. Underneath them both is the same principle: The loan must be repaid with the money it earns itself. For example, if the money is used to

buy a machine that will last ten years, the machine must earn enough in that time to pay for itself or it never will. The loan, therefore, should be entirely repaid before the 10 years are up or the farmer will lose money on the transaction, paying out interest for no benefit in return. On the other hand, if too early a date is set for repayment, the machine will not have had sufficient opportunity to make the requisite money and the borrower may have difficulty in raising it elsewhere. Rule 3 provides for some form of amortization, the system by which the principal is repaid in installments so that the amount of the loan is continually diminishing and in consequence the interest charges also. Such a system is quite feasible when the loan is really productive, when it returns to the borrower a definite revenue each year. Tables showing the payments required to pay off principal and interest in varying periods of time are appended to the bulletin and are recommended to the serious consideration of everyone who contemplates borrowing money. The bulletin also advises the farmer to secure the lowest possible interest. At first sight this seems too obvious to be worth mentioning. Of course, the interest should be as small as possible. Everybody knows that—except the lender. But if the other rules are observed, if the borrower manages his financial affairs soundly, he will be surprised to find how much easier it is to obtain favorable terms. The right kind of lender does not want to foreclose mortgages; he wants his money back with a fair profit, like any other merchant. For money that is borrowed wisely, for money that is sure to be repaid, he charges low interest.

This, in fact, is why the Government has published these rules for borrowers. It is not so much a matter of driving a shrewd bargain as it is of observing a few fundamental principles which alone can make credit a blessing and not a curse.

## OPPORTUNITY IS WITHIN YOUR GRASP.

Don't Wait For It to Kick the Pants Off.

Young man, young woman, have you the money you need? If you have not how are your prospects for getting it? Do you want a good home supplied with good books, beautiful pictures, rich carpets, warmth and light, wholesome food? Do you want social culture, pleasant companions, broad development of your faculties, to travel and see some of the beautiful places on this old earth of ours, to learn about different people of the different countries; in short, do you want to live a successful life and enjoy it? If so, you must launch out, get up and hustle and push; prepare to do something that the world wants done; and do it better and quicker than the other fellow; the world is full of opportunities for those who have the ambition and are prepared to grasp them. It is said that opportunity knocks at every man's door, but you must not wait for it to kick the pants off. You must be ready to open the door and grasp opportunity as it approaches. Make a sacrifice, if necessary, that you may give yourself the practical education that will lay the foundation of a great and successful future for you. Thousands of young men and women that were only a few years ago in the same position as yourself, are today cashiers of banks, owners of progressive business enterprises, or holding high government positions; they are living the life you would like to live, and the life you can live if you will enter our college and prepare.

**THE DROUTH.**  
For days the golden sun shown down  
On bare brown hill and arid plain  
And pleading eyes and tortured hearts  
Look heavenward and pray for rain.  
The brooks dried up, the flowers died,  
And parched leaves fell from fading trees.  
Brave hearts weep and mothers weep  
As children drooped like withered leaves  
With folded hands, with troubled eyes  
And thoughtful brow careworn.  
The farmer stands in the burning sun  
And looks at his fields of chiveling corn.  
Ah, surely, he thinks, 'twill rain to-morrow,  
For that is the change of the moon:  
And his anxious eyes turn to his fields of cotton  
With its yellow leaf and its sickly bloom  
The pitiful, and yet,  
The hot, dry days creep by  
The birds perish, the crops are dead  
And the earth begins to die.  
The farmer stands at his in-

ble;  
Dejected and with bowed head,  
His sad pale wife and children around him  
And he sparingly eats of bread.  
The blazing sun shines on  
It seemeth useless, yet again  
Pleading eyes and tortured hearts  
Look heavenward and pray for rain.  
At last, hopeful eyes and hearts look up  
To a sky grown sullen and dun,  
'Tis coming, the rain, and with brazen glory,  
Beams forth the glittering rays of the sun.  
Glare upon hopeless faces, burn hope to ashes  
And laughs at its lurid pun.  
He has come, the dread gaunt figure  
With burst and shriveled hand;  
With brown seared garments that rattle like bones  
Gory hearted famine stalks through the land.  
Men rave and curse in their anguish  
Women pray listlessly and then  
With cruel persistence, the fearful monster  
Burns out the souls of men.  
The dead grin up at the sun, He hides his face  
And cooling rain the hot earth lavens  
Too late? Ah, no, the poor bodies  
Must be washed for their graves.  
—Lois M. Taylor, Burnsville, Ala., Dallas county.  
Mr. and Mrs. R. D. Crawford and family of Dothan are in the city, the guests of Mrs. Crawford's sisters, Mesdames J. H. Dunklin and J. E. Kendrick.—Greenville Advocate.

### FEDERATION NEWS.

Chicago.—The slate of the nominating committee of the General Federation of Women's Clubs, prepared for presentation today was headed by Mrs. Percy V. Pennybacker, of Austin, Tex., the incumbent of the presidency, who was offered the traditional second term.  
Mrs. Samuel B. Smith, of Tifton, Ga., was named to succeed Mrs. L. L. Blankenburg, of Philadelphia, who has served two terms as first vice president. Mrs. Eugene Halliv of Charlotte, N. C., was slated for second vice president, and Miss Georgia A. Bacon, of Worcester, Mass., for corresponding secretary.  
Other officers named were the incumbents standing for re-election except two directors: Miss Mary Garrett Hay of New York City and Mrs. W. Brooks Young of Jacksonville, Fla.

### FATHER'S DAY—

Father is to have just recognition again, Sunday, June 21, being Father's day. On that day the ministers are expected to take special notice of the occasion and make appropriate reference to the fact. Mrs. John Bruce Dodd, of Spokane, Wash., is said to have the distinction of originating Father's day and suggesting that a red rose be worn in honor of the fathers who are living and a white one in memory of those who have passed away.—Columbus (Ga.) Ledger.

Miss Elizabeth Brooks and Miss Robbie Carlisle are visiting Mrs. Frank Slocumb in Headland. Several lovely affairs have been planned in honor of these attractive girls.

## SAME WORDS ABOUT GET TOGETHER

We quote the following from one of the big dailies of the South. It will apply equally to Dothan:

"A prominent business man of the Middle West is quoted in the Saturday Evening Post as saying this:

"American history is a history packed full of personal initiative; the individual looms up large in every chapter of it."

"In our earlier days we were dependent on the individual pioneer and his ability to take his axe and his gun, and hew and fight his way to personal fortune."

"This made us a national individualists."

"Individualism—ones, justified—has gone mad. We have overworked our one—time virtue, and we have now so exalted our individualism—in the name of free competition—as to allow, almost to compel the individual to assert himself against the rights of his fellows and the interests of society."

"Right now we are in the process of changing from this status of individualism to that intelligent social and business co-operation—a co-operation that is also selfish, but enlightened, high in its ideals, and wide as the world in its conceptions and aims."

"This is the new view-point, the modern view-point of the representative business man who believes in TEAMWORK among competitors, and who realizes that WITHOUT THIS KIND OF CO-OPERATION WE CAN MAKE SMALL PROGRESS ALONG THE LINE OF INDUSTRIAL DEVELOPMENT AND BETTERMENT."

"It is an undeniable fact that business men very generally have come to see that they can best serve themselves by working not only for the common good of their particular industry, but for the good of society as well."

The above words might well be

Demand the genuine by full name—Nicknames encourage substitution.

THE COCA-COLA COMPANY, ATLANTA, GA.

written and engraved upon a rock with a pen of iron.

In Dothan the Chamber of Commerce is the medium for this teamwork, the one agency here through which we can all work for the common good. At present there are great problems before us, many things to be done, things which will require time, effort and money to accomplish. Freight rates must be adjusted, we want new settlers, new industries, we want a union station, and most important of all, upon the Chamber of Commerce rests the tremendous task of organizing the farmers of Houston county to fight the boll weevil. At present plans are being perfected that will mean more to the welfare and prosperity of Dothan and Houston county than everything else combined.

EVERY MERCHANT, DOCTOR, LAWYER, AND WAGE EARNER IN DOTHAN SHOULD BE A MEMBER OF THE CHAMBER OF COMMERCE; EVERYONE ABLE TO CONTRIBUTE SHOULD DO SO. IF YOU ARE NOT YOU SHOULD OFFER YOUR SERVICES TO HELP IN EVERY OTHER WAY YOU CAN. THIS IS THE DAY AND

THIS IS THE HOUR.

We need more TEAMWORK—more working together, and the Chamber of Commerce urges every one to unite with it in its efforts to push Dothan to the front, and advance the interests of the town and county. Every one will share equally in the results, and everyone should help. If you are not a member, give us your membership at once.

**Invigorating in the Pale and Sickly**  
The Old Standard general strengthening tonic, (KROV'S TASTELESS CHILL TONIC), drives out malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

**SPENDS NIGHT ON COW  
HE KILLED WITH AUTO**

Valdosta, Ga., June 18.—An all-night encampment upon the body of a cow which his machine had run down and killed was the experience of Dr. J. H. Booser, of Quitman. The well-known physician and his runabout were found early Sunday morning anchored upon the body of the cow, which he had hit early Saturday night.

Standing near by was the team of a negro, with the owner calmly sitting upon the wagon seat, refusing to pull the machine off the cow until Dr. Booser paid him \$20 for the bovine.

The physician finally paid the negro the amount demanded, the team was hitched to the car, and Dr. Booser was pulled off and proceeded on to Quitman.

**WOMAN CHAINS SELF  
TO WELLINGTON STATUE**

London, June 18.—A militant suffragette today chained herself to the statue of the Duke of Wellington in front of the Royal Exchange. She shouted to passersby calling on them to intervene in behalf of imprisoned women. She eventually was removed by the police and amid the jeers of a large crowd.

**HATS REPORTED STOLEN.**

Several hats of a well known brand were reported missing from the sample room of the Newsom Hotel, North Foster street, this morning, and as a glass window in the building is broken, the theory is that a small boy climbed through the opening and committed the alleged theft. No arrests have been made.

You see here a picture of the hand cutting room of the great Selz Royal Blue factory in Chicago.

Here's where some of the highest paid artisans in the shoe manufacturing business today are helping make the famous Selz Guarantee possible.

We illustrate one of the Selz Supreme oxfords for men who want a dignified, refined shoe of the best quality. You cannot buy a better product. They're here in black or tan.
